

It would be a travesty if K-Love radio stations were no longer available in the Cincinnati-Northern Ky area. I listen daily and am moved each and every time. I have come to depend on the inspiration and spiritual support and guidance provided to me by the K-Love staff, programming and music. Many friends, co-workers, and family feel the same as I and we all would be saddened and disappointed by its removal from our local airwaves. The outreach programs hosted by K-love have a very positive, local impact on this community and that for one, would cease by its replacement with an LPFM. Please do not take this away from those who depend it and especially not from those who are still lost or seeking God in their daily lives.
